## Economy Moves Expected Tonight By GC Council

While not listed on the agenda for tonight's Granite City council session, several committees are expected to make cost-cutting recommendations, it was learned from Mayor Davis, who two weeks ago outlined three suggestions to reduce the city's deficit. Opposition to the program is anticipated.

Another busy session is indicated by the agenda with numerous reports and ordinances to ban house trailers on vacant lots and one-way traffic extension on Benton street—both placed on first reading Oct. 2—slated for consideration.

Also to be presented tonight is the resolution of intent for the city to participate in the \$100,000 mass transportation survey planned by the Bi-State Development Agency. Mayor Davis reported last week that local industries and Community College are willing to advance the city's share of the cost in the amount of \$20,000.

Building Inspector Earl Bloomquist is to address the council, according to the agenda, and an ordinance is to be submitted establishing the office of city engineer. At the Oct. 2 meeting an ordinance was to have been presented, setting a salary for the city engineer.

The agenda also lists a report on activities of the Planning Commission, the monthly reports of Police Magistrate Gasparovic, Comptroller Doehner and Treasurer Doehner, and the city's bill and salaries and an AAA pedestrian safety award for the month.

A resolution is to be submitted for street lights to be installed in the 1300 block of Madison avenue, and a resolution is to be submitted for a parking restriction on Iowa street during the demolition of the old hospital building, which is being razed to provide parking for St. Elizabeth Hospital staff members.

## Homecoming Starts At GCCHS: Coronation, Game, Banquet

Annual homecoming activities began today at Granite City high school and will be highlighted with the crowning of the Homecoming (Harvest) Queen on Friday and Saturday nights, where the Harvest Queen coronation will take place the same evenings. The queen's identity will remain secret until Friday evening.

This year's Homecoming theme is "The Big Take Off," with students paying tribute to America's famous astronauts. Each student is to be a junior, and an all-school bonnet will be sold along with mums and shakers and there will be a cake contest.

Today, an assembly program was conducted during which two students "took off for outer space." On Wednesday, an all-school review is planned to feature the Homecoming parade, and produced by members of Masque and Gavel, the speech department honor society. The skits are entitled: "Out of This World," "Monkey Business," "Just Drifting," "Kid Stuff," "Happy Homecoming," and "Count Down."

Also on Wednesday, between 6 and 7 p.m., the Homecoming parade, entitled "The Orbit," will be held, followed by "The Pop Explosion" rally to be held on the football field.

Following the Homecoming football game, the annual dinner, "The Big Banquet," will be held at the school. As a special attraction for the Harvest Queen coronation on Friday and Saturday nights, the setting will be a castle on the moon.

Mr. Veatch is a member of the Third Baptist Church, where he was honored last Dec. 18 for a year of perfect attendance at church and Sunday School. He was also a member of the Masonic Lodge at St. James, Mo. Survivors are two daughters, Mrs. Earl (Hilford) Lewis and Mrs. Neel (Corinne) Kelsch, both of Granite City, two sisters, Mrs. Clara Kahl and Mrs. Isabel Aldridge, both of St. Louis, one grandchild.

## Man, Wife Shot Fatally Today In Apartment

**Mr. Mrs. Barr Found  
In Venice; Apparent  
Murder And Suicide**

A double slaying occurring about 8 a.m. today in an apartment at 228 Broadway is being investigated by Venice police. Deputy Coroner Francis Lohy and Assistant State's Attorney John Gilchoff.

Victims of the twin slaying are William Earl Barr, 52, who rented the apartment and operated a pool hall in the same building, and his wife, Eleanor, 51. The couple reportedly had been separated for several days, and authorities said the death scene in a bedroom indicated that Mr. Barr apparently shot his wife and then turned a 12-gauge pump shotgun on himself.

Mrs. Barr had been staying with a son, Lawrence, above a grocery store he operates at 200 Granite street, a business recently operated by Mr. Barr. It was learned that her husband was still residing in the Broadway building and that she had come to visit him there this morning.

Not Found Immediately  
The bodies were not discovered until shortly after 10 a.m., but later questioning of nearby residents determined that there were sounds similar to shots two hours earlier.

Examining the scene, the victims also placed the time of death at 8 a.m. or after. Located on the corner of Third street and Broadway, the building also includes a restaurant recently operated by Mr. Barr, and a Memorial Association, and Mr. Barr was renting the apartment for the pool hall. The bedroom is on the south side of the building.

Mrs. Barr was shot once in the back of the head, apparently by a rifle slug. The "empty" cartridge of which was found on the bedroom floor, between the bed and wall, was found, and a kneeling position, with the upper part of her body lying face down on the bed. She was found dead.

Mr. Barr was found lying on the floor at the side of the bed, with a bullet wound in the right temple. The bullet had been shot in the side of the head, and the bullet was found in the floor just under the side of the bed.

A large quantity of blood coated the victims, their belongings, the floor and furniture of the room, investigators related. The two apparently died immediately after receiving the emergency treatment at St. Elizabeth Hospital.

F. Coolidge also are to be guests. Coolidge, retired, is a former high school principal.

## THE PRESS-RECORD . . . A PRINTED HISTORY OF QUAD-CITY GROWTH

"Though located in Granite City, the "Press" will be devoted to the interests of the Tri-Cities . . ."

With this statement a newspaper was introduced into the local community in April of 1903. The editors of the Press-Record, through 59 years of service, have held to this policy of being "devoted to the interests of our area." Always, the policy of the paper has been to act and report events of the area in a newsworthy manner in order to keep the citizens of our community well informed of the local events of our time.

As the area grew and expanded, so did the facilities and staff of the Press-Record, until today your Press-Record is one of the finest staffed and equipped newspapers in the country . . . bar none.

Currently there are 48 persons employed to produce the Granite City Press-Record for you each Monday and Thursday. In addition to its regular staff, over a hundred young men of our community find themselves "in business" as carrier boys who deliver your paper to your home. Modern equipment installed in the Press-Record plant is the finest, most modern printing equipment available and includes a new high speed press capable of printing four colors besides black in a single run. Less than 300 newspapers in the country are so equipped for color printing.

The Press-Record that goes into over 16,500 homes each Monday and Thursday is a continuing historical documentation of the happenings of our community. Birthday parties, social events, weddings, tragedies, public meetings and events . . . all are reported to the citizens of the Quad-Cities and the surrounding areas twice weekly.

The Press-Record is proud to be part of our nation's free press, the heritage of American citizens, which allows them to speak their minds freely and without fear of intimidation. The newspapers of America are truly the backbone of the American way of life . . . "in the land of the free."

## SIU Organization Plan For Police Dept.

(This is the third in a series of articles based on a reorganization study of city government in Granite City by Southern Illinois University.)

Proposed organization of the Granite City police department set forth by the SIU team of government experts, lists major changes in staffing and patrol functions.

"As present constituted, the department is over staffed with high ranking officers. It should be noted that there is disparity between the ranks on the division level and in the patrol division between the shift supervisors and the desk officers.

"For proper operation of the department, the development of the chain of command, establishment of definite routes of promotion and the development of departmental morale, the assignment of ranking officers should be changed.

"On the division level there are presently a patrolman, an assistant chief and a chief of detectives. The person handling the important function of establishment and maintenance of a system of police records should have higher rank.

### Sergeant For Clerk

"It is recommended that this position be given the rank of sergeant and that the present record clerk be promoted to the rank of sergeant. This is on the basis of an examination as soon as he is eligible for promotion.

"The designation of the head of the investigation division as chief of police is unequaled and an over-emphasis of rank. The occupant of this position should be subordinate to the chief of police in name as well as in fact. Changing the title will remove some confusion in the minds of the residents of the city. It is suggested that the head of this division be designated as a captain.

"The patrol division should remain under the immediate command of the assistant chief of police, but his hours should be adjusted so that he would work only the day shift. He presently works two night shifts as well as three day shifts. His position is such that he can be a great deal of assistance to the chief of police in the day-to-day administration and operational functions of the department.

"Within the patrol division, the shift supervisors have a 11th been designated as lieutenants

and the patrol supervisors as sergeants. It is intended that the shift officers handle the desk while the sergeant patrol supervisor is out on the street with a car giving direct supervision and aid to the patrol cars. In this way the lieutenant will have better administrative control over the men on his shift.

### Suggest 'Meter Mads'

"Other changes in the departmental organization, which will be discussed in greater detail later, are the reduction of the number of detectives by one, placement of this man as well as the present two patrolmen assigned to parking meters on regular patrol, the recruitment of two 'meter mads' to handle the parking meter enforcement and the hiring of a clerk to do much of the routine work in the records division as reported by the SIU team.

"It is recommended that these changes be made as soon as possible. The changes in rank will be made only if the rank retire from the force. No further appointments should be made to any rank vacated unless it follows the recommended table of organization."

## 14 Local Men Drafted; November Quota Down

Fourteen Quad-City area men reported for draft induction Friday morning to the county selective service office at Edwardsville; and announcement was made that the area's quota for November has been reduced to three men to report on Nov. 16.

## NEW DIRECT DISTANCE DIALING Now in Service

Quad-Cities residents will be able to dial their own Long Distance calls direct to more than 6,000 cities

Yesterday, Direct Distance Dialing came to the Quad-Cities. It permits telephone customers to dial their Long Distance calls direct to more than 6,000 cities throughout the nation and Canada.

Direct Distance Dialing is a big step forward for the Quad-Cities. It is, in fact, the biggest service improvement since dial telephones were put into operation.

This new Long Distance service makes you feel as if you're in command of the whole nationwide network—and you really are. With just 10 turns of your telephone dial, in 45 seconds or less, your calls zip through to folks living thousands of miles away. How's that for speed? Someone figured out that Direct Distance Dialing is at least 180 times faster than the fastest jet aircraft.

### HOW TO PLACE A CALL WITH DIRECT DISTANCE DIALING

There are two basic and easy-to-remember steps to follow in making a direct distance call:

1. Check Your New Directory For Area Code Number. Your new directory contains a list of frequently

called cities and a three-figure area code number for each of these cities. For example: the area code for Kansas City is 816.

2. Dial the Area Code for the city you want, then simply dial the phone number just like a local call. To reach Baltimore 1-9900 in Kansas City, you would dial 816 BA 1-9900. (If the city you are calling is not listed, dial "Operator" and ask if the town you wish to reach can be dialed.)

For additional information about Direct Distance Dialing and complete dialing instructions, refer to the information pages in front of your new Directory.

When you place calls to persons who are listed in this directory, the Greater St. Louis Directory and to telephones in Alton, Wood River and Edwardsville, you simply dial the listed number.

### CALLS WHICH WILL CONTINUE TO BE HANDLED BY THE OPERATOR

For technical reasons, Direct Distance Dialing is not available for coin telephone users. They will continue placing their out-of-town calls through the Long Distance operator. Person-to-person, collect and credit card calls also will, as now, be handled by the operator.

# Trinity Methodist Scene Of Gorrell-Landman Nuptials

Trinity Methodist Church was the scene of the wedding Saturday evening of Miss Phyllis Landman, a daughter of pearl and sequin lara and Mr. and Mrs. William Landman, 2833 Palmer avenue, and Mr. John W. Gorrell, whose parents are Mr. and Mrs. Howard Gorrell, 2834 Palmer avenue.

Altar bouquets of white fall flowers, ornamental arrangements of fern decorated the sanctuary, for the 8 o'clock ceremony performed by Rev. J. T. Bryant, church pastor.

Mrs. Frances Balding presided at the organ and accompanied the soloist, Mrs. Dorothea Jones, an aunt of the bride, as she sang "Because," "Thine Alone," and the Lord's Prayer.

Mr. Landman gave his daughter in marriage. She wore a gown of white tulle with an empire bodice and long sleeves. Re-embroidered Alencon lace encrusted with pearls and iridescent sequins gave accent to the scalloped neckline. The princess silhouette was further enhanced by small covered buttons down the back to a butterfly bow which emphasized the broad fullness and the graceful

Miss Rita Kay Kessler, a daughter of Mr. and Mrs. William Kessler, 2414 Grand avenue, was married to Glen Cockrum, a son of Mr. and Mrs. Raymond Cockrum, Rural Route One, Friday evening at the Presbyterian Church of Apostolic Faith, St. Louis.

The double ring ceremony was performed at 7 o'clock by Rev. Howard C. Roy and a reception was held at the Kessler home afterward.

The hostesses were Misses Elizabeth Greco, Patsy Bryles and Sherman Allen and approximately 100 persons attended. Decorations were carried out in a wedding bell theme and games were enjoyed after the gift packages were opened. A number of prizes were awarded.

The bride was given in marriage by her father. She wore a semi-formal dress of light blue with a scalloped neckline, short sleeves and a cummerbund with a large bow in the back. A small hat and brief veil matched the dress. Her flowers were white carnations.

The attendants were Miss Judy Oxford and John Cockrum, a brother of the bridegroom. Miss Oxford was in rose, the bodice of the dress made of velvet and the skirt of nylon. She wore a corsage of white carnations.

Mr. and Mrs. Cockrum will reside at 2012 Oregon avenue. A graduate of Granite City high school, he is employed in St. Louis. The bride is a student at Granite City high school.

MRS. JOHN W. GORRELL, who was married Saturday evening at Trinity Methodist Church. A daughter of Mr. and Mrs. William Landman, 2833 Palmer avenue, the bride is the former Phyllis Landman.

MR. AND MRS. MICHAEL BISTO. Their wedding was on event of Saturday morning taking place at Sacred Heart Catholic Church. The bride is the former Nancy J. Sloss. Her parents are Mr. and Mrs. William Sloss Jr., 2817 Fortune drive.

The 10:30 ceremony was performed by Rev. John Barvett and wedding music was provided by Mrs. George Crawshaw, organist, and Pete Gallas, soloist.

Miss Sandra Sloss, a sister of the bride, was maid of honor and Mrs. Jerry Ryterski, the bridegroom's sister, served as bridesmaid.

John Ryterski was best man and the groomsmen and ushers included Jerry Ryterski, Richard Mendez and John Bisto, uncle of the bridegroom.

The bridegroom was fashioned of white silk organza with a scoop neckline, an Alencon lace bodice with pearl trim, and a long train. The voluminous skirt was enhanced with lace motifs, the back featuring a pouff effect and ending in a short train. A silk illusion veil, tiered, was secured to a pearl and sequin crown and the bride held a cascade of white carnations and a lilies of the valley showered with satin ribbon. # Miss Koelker, Robert Kalka Exchange Vows At St. Mark's

Among the many early autumn weddings was that Saturday morning at St. Mary's Catholic Church in Venice of Miss Mary Jo Koelker, a daughter of Mr. and Mrs. Edward Koelker, 430 Lincoln avenue, Venice, and Robert Kalka, whose parents are Mr. and Mrs. Samuel Kalka, 1647a Seventh street, Madison.

Rev. Robert McCarthy officiated at the 10 o'clock nuptial Mass before the altar decorated with white Fuji chrysanthemums and pink roses and banded with white carnations. White satin bows marked the family pews.

The bride was escorted down the white-carpeted aisle by her father, who gave her in marriage. Imported handclipped Chantilly lace was used to fashion the bridal gown. The bodice, with a Sabrina neckline and long wrist-pointed sleeves, was embellished with pearls and sequins. Graduated self-lace roses formed an oval curve in the back of the skirt which swept into a chapel train. An orange blossom crown held in place a fingertip veil and a white orchid with a yellow throat while white Kalka shoes and a white tulle train made up the bridal bouquet.

Heading the procession to the altar was a maid of honor, Miss Charles Koelker, a sister of the bride, Miss Barbara Koelker and Miss Sharon Howard, her cousins, and Linda Stern, bridesmaid, Judy Kulasza, junior maid, Diane Rotter and Loreta Bialy, cousins of the bride and groom, flower girls, and Jimmy Bialy, ring bearer.

## MORE ABOUT 70,000 County Jobs

(Continued from Page 1)

on into account and carefully evaluated in order to meet the county's present and future needs.

"Since there is a considerable degree of economic fluidity, or linkage, between the manufacturing and service sectors of the metropolitan area, all its political constituents share, in a sense, a certain common economic destiny."

In 1958, the four principal economic groups in the Illinois-Missouri metropolitan area paid out nearly \$2 billion in salaries and wages to 477,887 workers — \$1,320,832,000 to 256,381 manufacturing workers; \$290,448,000 to 123,841 at retail establishments; \$244,338,000 to 48,731 at wholesale establishments; and \$119,880,000 to 48,914 in selected services.

"While these figures do not represent total employment in the area, which may have ranged around 600,000 in 1958, nevertheless they illustrate the overwhelming economic importance of manufacturing activities."

11.3% of Area's Payroll

"Of the 477,887 and \$1,324,386,000 area totals, Madison county accounted for 48,173 — 10.1% of the employees — and \$224,067,000 — 11.3% of the payroll. St. Clair county totaled 38,438 or 8% and \$147,169,000 or 7.5%."

A breakdown of the Madison county statistics shows that manufacturing led with 33,237 or 69.03%, retail trade with 10,532 or 21.9%, and services with 4,404 or 9.06%. Madison county's manufacturing employment lead over its neighbor has grown from 8964 in 1947 to 9964 in 1954 and to 12,637 in 1958.

"Aside from the 12,637 manufacturing employment lead, \$31,257 to 20,820, St. Clair county leads by 1565 at wholesale establish-

ments, 1148 at retail establishments and 208 at selected services.

"Because of their geographic and economic relationships, Madison and St. Clair counties share a common labor market. The total employment estimate of 148,300 in 1958 was some 15,000 below the 1952 level, the decline being the local reflection of a general slackening in economic activity throughout the nation.

"Two-thirds of the employment decrease occurred in the manufacturing segment of the economy, which would furnish gainful occupations for the entire civilian labor force of both jurisdictions, is reckoned at between 170,000 and 180,000."

38% Of Population Employed

"This employment level would be a statistical sense, provide livelihoods for about 38% of the total 1960 population of the two counties. This same ratio obtained in 1950, when 35% of the total work force was gainfully occupied."

"It is estimated that all economic activities in Madison county provide gainful employment for approximately 70,000 persons, half of whom are workers in manufacturing establishments — in education, public administration, health, professional, utilities and communications."

A breakdown lists 17,000 employees in durable goods manufacturing, 18,000 in manufacture of non-durable goods and in industrial services, 3300 in agriculture and 31,100 in non-manufacturing — retail and wholesale trade, selected services, construction, public administration, education, medical and health, professional, utilities and communications."

Commitment To Work

"However, since it is calculated that in 1960 about 84,000 Madison county residents either employed or were qualified to work, it follows that substantial numbers of Madison county's work force commute to outside sources of employment. On the other hand, many non-residents are known to be employed by Madison county firms."

A selective sampling reveals that two of the locality's major employers had some 3500 non-resident workers on their payrolls. One of the firms surveyed reported that 28% of its total work force was composed of non-residents of Madison county.

The 9-10-year-old Junior Gas of Second Baptist Church met Friday afternoon and elected officers. Those present were Diane Oliver, Connie Wigger, Nancy Newberry, Debbie Baden, Debbie Porter and Debbie Lawell.

## Newspaper Week Goal—Helping Citizens To Maintain Their Heritage Of Freedom

The basis of our government being the opinion of the people, the very first object should be to keep that right; and were it left to me to decide whether we should have a government without newspapers, or newspapers without a government, I should not hesitate a moment to prefer the latter.

These words of Thomas Jefferson, which come to mind as observance of National Newspaper Week begins, reveal the importance placed on an informed citizenry by the nation's founding fathers. This concept is in harmony with the description of press freedom as the government's "fourth estate" — the factor which, when added to the three basic branches, executive, legislative and judicial, enables the entire system to function by keeping the public informed.

How does the Press-Record help to fulfill its mission? Active opposition here to gangster-gambling, vice and other corrupting influences is well known. With a general goal of good government, this newspaper has supported a wide variety of progressive municipal and civic measures. Analytical articles and illuminating comments have been combined with "reporting in depth" in the form of special series on important public proposals. Meetings of public bodies are reported regularly and in detail.

The overall task is one that the Press-Record humbly but willingly accepts. It is a challenge that must be met, but cannot be met alone. Each reader can help by keeping abreast of current issues and writing his views for publication in the Forum column; opinion on all matters of public interest is welcomed and encouraged. Most of all, readers can contribute to the maintenance of a free society by reading, thinking and acting to perpetuate governmental efficiency and to safeguard freedom for each individual.

Working together, newspapers and citizens can add meaning to the ideal which serves as the 1961 National Newspaper Week theme—"Your newspaper... heritage of truth... frontier of freedom." The heritage of an informed people governing themselves, rather than being shackled by the chains of tyranny, is well worth defending, no matter what the cost.

## 100th Class To Graduate At Granite City High School

Speaking of centennials, as we have been lately, Granite City high school has reached a milestone of sorts. Its hundredth class is only about three months from graduation, and the occasion will be observed at the high school alumni banquet Thursday evening.

GCHS graduations date back to 1902, with classes enrolled annually and semi-annually during different periods of the school's history. One of the 1902 graduates, Miss Jennie Wilcox, is to be honored at the dinner along with the initial May Queen and Harvest Queen.

With the return to yearly enrollment, it may be a century from now before another 100 classes have passed through the school. But, as any GCHS graduate can tell you, it will take some doing to top the illustrious record made by members of the first 100 classes.

## International Experiment May Aid Local Employment

International cooperation is exemplified by a corn syrup processing experiment being launched by the Union Starch and Refining Co. It is working with firms in Denmark and Germany to develop large-scale operations utilizing a completely new starch-syrup procedure.

If the plan is successful, local employment will be boosted and Union Starch will have exclusive production rights in the western hemisphere as well as sharing in any processes or techniques resulting from the experiment. Because the Quad-Cities were chosen as the site, there can be substantial local benefit from Union Starch's decision to join hands across the sea.

## All Should Give To United Fund, For All Benefit In Some Way

Heralding the opening of the United Fund campaign, a parade and dinner will inaugurate yearly welfare fund solicitation here tomorrow evening. Though all Quad-Cityans will not participate in the initial events, all are closely affected by the UF program and the result of the drive.

The story of the United Fund and its many agencies has been told dramatically and thoroughly in recent weeks. "Local YMCA is mecca for Quad-City area... Protestant Welfare aids in emergencies... Catholic Charities' goal is to strengthen the home... Girl Scouts active throughout community... Coordinated Youth Services search out youth problems... Youths have home, school at Boys' Town of Illinois... Retarded children's group meets problem... Salvation Army gives service to all ages... Teen Town is sports, social center... Madison Teen Town centers attract hundreds each week... Boy Scouts growing in membership and activities... Red Cross has 10-fold service program... Mental health clinic works to prevent, cure problems... Illinois Children's Home and Aid Society is newest UF agency."

Benefits are tangible for some and intangible for others. The extensive efforts by the agencies would be more apparent, probably, if they were halted, for any one individual or family does not come in direct contact with all of them every day. But there is no question that everyone has a stake in preserving the type of community that cares whether youngsters have the opportunity to develop citizenship, and that cares whether a helping hand is extended to families encountering an unexpected and pressing problem.

The United Fund means many things to many people, but most of all it means a community where the environment is conducive to success and happiness for every man, woman and child. The one-year drive for funds begins tomorrow, once again testing Quad-Cityans' generosity and far-sightedness. We are confident that local residents will meet the test.

Editors might take a tip from Congressman Wayne Hays, of Ohio, who has found a way to answer abusive or irrational letters. Hays has his reply ready: "Dear Sir: Twice in the last week some crackpot has written me a letter and signed your name to it. I thought you ought to know about it before it gets out of hand."

## Tests During Probation Reduce Backsliding By Drug Addicts

Because of its unique nature, narcotics addiction requires unusual measures by state and federal authorities if it is to be fought and defeated. A new Illinois method is drawing attention because it sets up a post-confinement five-year probation period, during which periodic tests are required. The result has been a sharp reduction in "backsliding."

As State Public Safety Director Ragen notes, "The big problem in preventing relapse has been that addicts return to the same sort of life they led before conviction." With the new follow-up program, this can largely be prevented. Of 1357 probationers and parolees given 1926 tests so far this year, revocation of probation or parole has been necessary in only 31 cases.

## THE PASTOR SPEAKS

Rev. George Sagen, Pastor, First Baptist Church

The year was 1941. The place was Ft. Bragg, N. C. The occasion was the Easter Sunrise Service. All of the troops in the Twining Regiment were present with their officers.

The training regiment was large and every battery was in its place. The men had marched in like soldiers.

We held our service in a ravine filled with stumps, logs and sand. The chaplain brought the message. The band played and now the service was over. Following the benediction, the men started scrambling, stumbling out of the area.

One of the batteries spoke clearly and firmly. Attention! Heads Up! Eyes Front! Forward! At once every man was alert and now they marched out like soldiers and not a man stumbled or fell.

This is 1961. The world again is a place filled with sand traps, hidden obstacles and known dangers. The people for the most part are like men at Ft. Bragg, confused, and stumbling about. Safety and salvation is not to be found in the muddling thinking of man. It is found in the Word of God and the Word of the Lord. "Look unto me and be ye saved, all the ends of the earth, for I am God and there is none else."

Once more we need to hear the command "Heads Up, Eyes Front!" John the Baptist said "Behold the Lamb of God, who taketh away the sin of the world."

## PROCLAMATION

WHEREAS, the newspapers of the nation during the week of Oct. 15-21, 1961, are observing National Newspaper Week with the theme "Your Newspaper—Heritage of Truth, Frontier of Freedom" and

WHEREAS, this theme is particularly appropriate during a time of political upheaval which is serving as a cloak for the enemies of democracy to seize control of the press and subvert the minds of their fellowmen, and

WHEREAS, our newspapers are a potent force in bringing about desired civic improvements in our towns and cities because of enlightened public opinion shaped and nurtured by the free American press, and

WHEREAS, our nation's business system, built on moving goods from the shelf or showroom to the consumer, benefits largely because our newspapers help by their advertising columns to move goods, thus creating jobs and helping to build prosperity for Americans, and

WHEREAS, there is tremendous cynicism on youth today both at home and abroad, and one of the greatest heritages we can give our youth is a free press that will keep their government free and their lives free.

NOW THEREFORE, WE, the mayors of Granite City, Madison and Venice, do hereby proclaim the week of Oct. 15-21 as National Newspaper Week in the Quad-Cities and urge all citizens to take time to reflect upon the theme, "Your Newspaper—Heritage of Truth, Frontier of Freedom," with special attention to the need in the world today for uncensored channels of information that will help to dispel suspicion and distrust among men.

## Wet Road Causes Crash

Wet pavement on Madison avenue was blamed for a two-car accident on Madison avenue at the Nannetoli road traffic signal Friday morning. Involved were northbound cars driven by Charles E. Koenig, 3516 E. Edwards street, who had stopped at the signal, and Robert O. Selph, 4022 Role avenue, who said Selph's car skidded on the wet pavement.

## Painting, Other Improvements At School Buildings

Extensive painting has been included in building improvements carried out this summer and fall in the Granite City school district, a summary by School Engineer Marvin Dean shows. With four extra painters being used, the work schedule is nearing completion, he has reported.

Painting at Granite City high school has included 20 classrooms, two teachers' lounges, restrooms, concrete floors, two stairways, the library, speech room and kitchen salad room. Shower and locker room ceilings and a waiting room in the gymnasium and rhythm room were painted in the memorial gymnasium building.

Other GCHS work has included electrical outlets, fluorescent lights and sound system repair, and cabinets and window blinds are planned.

Also painted were 21 classrooms on the second floor at Coolidge Junior High; Central Junior High, exterior wood and metal and concrete floors; Frohardt, two new classrooms; Niedringhaus, exterior wood and trim; Namooki Presbyterian Church classrooms; Mitchell, exterior wood and trim, four classrooms, office, boiler room, entrance hall, doors, restrooms, corridor wainscoting, kitchen and stairwells; Stallings, kitchen; Marshall, kitchen and cafeteria; Webster, concrete floors and steps, kitchen and cafeteria; McKinley, metal sash, concrete floors and steps; Emerson, corridor floors and steps and one room; Logan, interior woodwork; and Logan annex, corridor floors and steps.

Work has been in progress on Washington school painting, along with application of "Grade 8" stone to driveways and lots. Roof repairs have been made at Namooki, Mitchell, Stallings and Marshall, Emerson, Washington and GCHS.

**Blacktop Surfacing.**  
Overlay of GCHS tennis courts has been postponed until spring, but blacktop work has been done at Frohardt, Niedringhaus, and the Logan annex and is scheduled at Maryville and Wilson. Electrical outlets and student lockers have been installed at Central, and heating and ventilation improvements are planned at a Prather Junior High room.

Projects completed include fans installed at Stallings, Frohardt and Logan, water coolers provided at Marshall and Namooki, cafeteria rearranged at Webster, kitchen enlarged at Stallings and Mitchell, boiler tubes replaced at Marshall and Washington, parking lot improved at Mitchell and electric outlets installed at Marshall.

Work still scheduled includes water cooler installation and plumbing repairs at Emerson, a new oven and improved ventilation for the Frohardt kitchen, venetian blinds at Mitchell and window shades at Webster grade school.
